

Developing LibGuides

tailored to your course/subject

LibGuides are an excellent way to supplement a class with library resources. Librarians use LibGuides to create attractive multimedia content, share knowledge and information, and promote library resources to the community.

Contact us and we will work in collaboration with you to create a resource guide for your class/topic/assignment. For a full list of LibGuides visit the library website.

Your needs are our priority

Resources for Faculty

<https://library.indianatech.edu>

Curriculum Mapping

McMillen Library assists faculty with instructional research/curriculum mapping.

Upon your request we will form a small support team of librarians who are familiar with your course, department, and materials in your discipline.

Our team will review your request and begin identifying open textbooks, eBooks in library subscribed databases, government documents, and items in the public domain that might meet your needs.

Library Instruction

Faculty can request that a librarian attend their class to review search strategies for articles, books, statistics, etc.

Our instruction can be tailored to your class' needs, specific subject or particular assignment.

Schedule your library instruction by emailing directly or filling out online form on the library website.

Useful Library Resources

The library subscribes to several research databases, among them :

- ProQuest
- Ebsco
- Sage Research Methods
- Engineering Village
- Access Engineering
- Mergent Online /Intellect
- For a full list of databases visit library website

Browse available electronic journals using:

eJournal Finder

Need a book or article McMillen Library doesn't have, use our Interlibrary Loan Service.
